# EDITING TOOLS – DEPENDENCY MANAGER

- Every page and file in Omni CMS gets a unique ID number
  - “Dependency Tag”
- When making links, Omni CMS uses the ID number, not a URL
- Links to files get automatically updated when they move or are renamed
- Broken links will only come from deleted files

# REUSABLE CONTENT

## Assets

- When you want to reuse content and structure/styling
- Not customizable on page
- Pages update automatically
- Five types:
  - Web Content
  - Plain Text
  - Source Code
  - Form
  - Image Gallery

# REUSABLE CONTENT

## Snippets

- When you want to reuse structure/styling, but keep content unique
- Customizable on page
- Changes to one page won't affect other pages
- Makes it easier to edit complex blocks of content in WYSIWYG

# REUSABLE CONTENT

## Components

- When you want to reuse structure/styling, but keep content unique
- Uses form fields to prompt for content
- Customize content on each page
- Changes to the Component's base code **WILL** be reflected across all pages with the Component
